If the above proposals are approved, the Expenditure would be reduced to Rs. 45,179 which would still exceed the assets by Rs. 22,035-, for which there is no other alternative than to make special grants, viz: Rs. 9,000 which is the amount available out of the Public Works grant of Rs. 40,000 and

Rs.

the Commissioner of the Nandidrug Division, was requested to report as to why the Ex Engineer of the Tumkur District was not consulted in preparing the District Fund Budget of the current year, and to state what provision could be made available for the Sira - Amrapur road by deferring less urgent works or otherwise.

7. Col: Pearse now states in reply, that the Dy Commr of Tumkur has reported that due notice was given to the Ex: Engineer, but as that officer did not attend, the Committee were deprived of his advice & assistance in the preparation of the Budget; that owing to the understanding that the work was to be carried out by the P.W.D. no provision was made in the Dt. 8. In the absence of information as to the actual expenditure incurred by the P.W.D towards the construction of Bridges on the road, the Commissioner is not in a position to state what amounts will be required for expenditure during the current year, but on a reference to the sanctioned Budget, he observes that the total estimated expenditure is Rs 33,938 against a probable income of Rs 46,984, thus leaving a balance of Rs 13,046 available for expenditure on other new works - The Commissioner therefore suggests that a supplamental Budget be prepared after the requirements have been ascertained for the current year on ~~the~~ account of both the road & bridge -

The necessity for these works having already been intimated to the Commissioner the Committee proposes that provision be made for their completion in the Budget estimate as stated above

With regard to Nos 5-6-7-8 and 9 the Committee unanimously agree that they should be put in hand as early as possible and accordingly propose that provision be made for them in the Budget.

The Committee observes that Nos 10 and 11 are urgently needed as they will greatly facilitate traffic on those lines and therefore propose that provision be made for them also.

The Committee also proposes to provide a small sum for Miscellaneous Public Improvement. Thus the total amount of the proposed original works together with the Miscellaneous Public Improvement amounts to Rupees 17,452 or 1067 2 Rs more than the estimated assets. The Committee therefore

propose that the Chief Commissioner be solicited to sanction the extra amount from the Local Funds General.
